HILUX

TOUGH TIMES — CALL FOR — LEGENDARY TOUGHNESS

SINCE ITS INTRODUCTION, THE HILUX HAS SERVED THE COUNTRY THROUGH THE GOOD TIMES AND THE BAD.

WITH CONSTANT INNOVATIONS SUCH AS FOUR-WHEEL DRIVE AND ITS EXCEPTIONAL DURABILITY HAS MADE THE HILUX THE FAVORITE PICK-UP.

FOR WORK, PLAY AND EVERYTHING IN BETWEEN.

Five decades and eight generations of Hilux later, the world's a different place. Never before has the world undergone such rapidly radical change as now, making all of us yearn for dependability, tenacity and safety.

And never before could you count as much on a pick-up as with the new Hilux. Featuring fearless and enhanced styling on all models, new flagship RAIDER Grade delivers more power from its 2.8L turbodiesel

engine and the introduction of advanced safety interventions, this is the pick-up to command your own destiny and conquer crises. To seek adventure. To get the job done. To do what it takes. And to not just survive the world, but to thrive in it.

— THE NEW HILUX. TOUGH TIMES WILL ONLY MAKE US TOUGHER. —

RANGE

2024

TOUGHER TOGETHER

THE NEW NORMAL HAS TAUGHT US TO PRIORITISE
WHAT'S REALLY IMPORTANT. TO SHARE MORE.
TO DO MORE. TO APPRECIATE MORE.

Which is why there's a Hilux for every need- available in Single Cab and Double Cab- and with a choice of engines in diesel; from the workhorse models serving businesses, to the RAIDER for multiple uses; for explorers discovering the most remote jewels in ultimate style, comfort and power. Discover new colors also available on the HILUX.

NOTHING SHOUTS
"BRING IT ON"
LIKE A MUSCULARLY
STYLED PICK-UP.

BRINGING OUT THE BEST IN THE NEW HILUX RAIDER MODELS - AND YOU - IS AN AGGRESSIVE EXTERIOR PACKAGE THAT CHALLENGES THE STATUS QUO.

A custom-designed trapezoidal grille underlines the RAIDER specification's toughness as well as a black engine hood moulding.

Naturally, the RAIDER's fog lamps and headlamps are fully-LED powered, the latter of which also integrate LED Daytime Running (DRL) Lights.

At the side, the RAIDER black treatment continues with the door handles, side mirrors, front and rear over fenders and sports bar*,

highlighting the RAIDER's supreme toughness as well as exclusivity from other Hilux models.

18" tyres and boldly styled new black alloy rims complement the RAIDER's purposeful profile styling.

At the rear, tough tech tools abound, such as an LED deck light, and a central locking tailgate which come standard on the RAIDER grade.

WORKHORSE STRONG

WORKHORSE

As a range of businesses form the heart of our economy, you want a nonsense partner that exists to perform, day in and day out, no matter the job or the deadline.

That's why Hilux models keep on powering on, keeping frills to the minimum and delivery to the maximum.

Be it on highways or gravel roads, new standard-equipped 17" steel wheels and a specially designed ultra-tough moulded front bumper protect your investment. While the generously-sized loadbox, power side mirrors, and LED brake light keep the wheels of your industry turning.

**Available on selected models*

PERFORMANCE

INNER STRENGTH — FOR — REACHING OUT

LEGENDARY TOUGHNESS REQUIRES LEGENDARY POWER.
HELPING YOU WELCOME ANY CHALLENGE IS A RANGE OF
TURBODIESEL ENGINES FITTED WITH MANUAL OR AUTOMATIC
TRANSMISSIONS.

The four-cylinder, 2.8L turbodiesel engine, as fitted has been upgraded to deliver 150 kW of power @ 3 000-3 400 r/min and 500 Nm of torque @ 1 600-2 800 r/min on the 6-speed automatic transmission models; and power of 150 kW @ 3 400 r/min and torque of 420 Nm @ 1 400-3 400 r/min on 6-speed manual transmission-equipped models.

With peak torque nearly available from idle speeds, this engine delivers powerful acceleration and low fuel consumption, while maximising driveability for increased driving pleasure or trailer-towing ease.

A super-economical four-cylinder, 2.4L turbodiesel engine producing 110 kW of power @ 3 400 r/min and maximum torque of 400 Nm of torque between 1 600-2 000 r/min is also available.

Ready to take on the biggest loads and the roughest roads, all Hilux models are fitted with double wishbone front suspension and ultra-strong load-ready leaf springs at the rear. The suspension has been enhanced to absorb vibrations and reduce shock transmitted into the cabin, and add an improved sense of comfort, feel and directness.

NEVER ONE TO SHY AWAY FROM A CHALLENGE, THE HILUX 4X4 EXPERIENCE IS FURTHER ENHANCED THROUGH THE FITMENT OF THE FOLLOWING DRIVER AIDS:

HILL-ASSIST CONTROL*

Prevents the vehicle from rolling back when pulling off from a sharp incline.

RANGE SELECTOR DIAL*

Simply turn the dial on the electronic transfer switch on the centre console to easily swap between 4WD, 4WD LOW and 2WD.

DOWNHILL-ASSIST CONTROL*

Prevents the wheels from locking while manoeuvring extreme descents, this system simultaneously manages engine braking and brake pressure, maintaining a stall-free and stable downhill vehicle speed.

LIMITED SLIP DIFFERENTIAL*

Aims to ensure maximum available traction during wheel spin situations by transmitting power to the tyre with the most grip. This assists the driver in traversing mud and other soft surfaces; and provides better control during extreme cornering.

* Available on selected models

INTERIOR

OUTER STRENGTH, INNER COMFORT

The blue ambient lighting integrated into the door panels of HILUX RAIDER models creates a sophisticated and harmonious feel in the cabin. Occupants of HILUX RAIDER enjoy leather seats (of which the driver seat is electrically adjustable) with perforation for better breathing, a leather-clad gear selector and steering wheel.

**Available on selected models*

HILUX RAIDER 2.8L 4WD

HILUX 2.4L 4WD

HILUX 2.4L 2WD

— THE ALL-NEW —
HILUX

THE AWESOME TRIO!

UNSTOPPABLE — UNCOMPARABLE — UNBREAKABLE

HILUX

RAIDER 2.8L 4WD

Nothing can be compared with the impressive feeling of driving a brand new Toyota HILUX RAIDER. With an improved 2.8L turbo engine, the sensation of power and smoothness will take you to another dimension. Ready for any terrain, this beast is unstoppable!

HILUX

2.4L 4WD

The best of both worlds!
Ready for a challenge and polyvalent at all times. The HILUX 2.4 GD-6 is available in both manual & automatic transmission along with four-wheel drive for any situation. Whether it is for work or play, the HILUX will let you have it, your way.

HILUX

2.4L 2WD

Experience extra tough!
The HILUX 2WD exists to outperform. Day in and day out, no matter the job or the deadline, with toughness you can rely on at all times.

All models are equipped with advanced brake control systems to help prevent accidents or mitigate injury. These include:

ANTI-LOCK BRAKING SYSTEM (ABS)

ABS (Anti-lock Braking System) monitors the speed of each wheel to detect locking. When it detects sudden braking, it will release braking pressure for a moment and then provide

optimum braking pressure to each wheel, enhancing steering control during sudden stops. As a result, it will also help improve the ability of stopping the vehicle.

BRAKE-ASSIST (BA)

Brake-Assist (BA) is the pre-emptive identification of an emergency braking situation through which

additional braking force is automatically applied to reduce the braking distance.

ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD)

Electronic Brake-force Distribution (EBD) takes the principle of ABS even further, by individually distributing braking force to each corner to allow

for variances in weight distribution and tyre grip under braking to maximise stability, stopping distance and vehicle control,

VEHICLE-STABILITY CONTROL (VSC)*

Vehicle-Stability Control (VSC) keeps you in control and the vehicle pointing straight when on slippery

surfaces by individually applying braking to each tyre where necessary.

TRAILER SWAY CONTROL (TSC)*

Trailer Sway Control (TSC)* keeps you and your trailer safe by minimising lateral

movement from cross winds and road surface changes.

SAFETY

ALL NEW HILUX MODELS ARE INSTALLED WITH ADVANCED SAFETY AND SECURITY FEATURES

AUTOMATIC FOLLOW-ME-HOME FUNCTION*

An automatic follow-me-home function* is integrated into the lighting control system, which allows the headlights

to temporarily remain switched on for a predetermined period after the driver has exited the vehicle.

SECURITY

All new Hilux models are installed with advanced security technology that includes wireless door locking (keyless Smart Entry on Raider models and automatically locking doors upon

pull-away at a certain speed. There is also an intrusion sensor, and an independently-powered alarm and immobiliser, to ensure that your Hilux remains in safe hands.

*Available on selected models.
