See the world the Urban way

Get behind the wheel of the all-new Urban Cruiser, with advanced tech at your fingertips. The reassurance of Toyota durability and that uniquely smooth Toyota feeling will set you apart from other drivers. Enjoy a grand SUV feeling with a ground clearance of 210 mm and high seating position giving great road visibility. Combined with an elegantly designed interior that comfortably seats five, the Urban Cruiser shines on every road.

Unique front grille in chrome and in granite gray.

Modern look with LED daytime running lights.

LED Projector headlamps for better night time visibility.

LED type rear lights for an aggressive feeling.

Dark 17" alloy wheels for a deeper look.

Efficiently Powerful

The all-new Urban Cruiser delivers exciting performance without compromising on fuel efficiency giving you peace of mind on both long and short trips. The 1.5L petrol engine offers low consumption, yet, is powerful and allows quick acceleration.

1.5L Petrol Engine		
DISPLACEMENT (cm ³)	POWER (HP/kw)	TORQUE (Nm/rpm)
1462	105/77	138/4400

Keyless Smart entry & Start system
Gets your car started while your key remains in your pocket or bag.

4-speed Auto Transmission
Convenient driving experience with enhanced fuel economy.

Rear Air Vents
Great comfort for passengers at the back with rear A/C vents.

Leading the way for future generations

GL

With LED daytime running lights and brake lights the GL grade is just that, Stylish and feature filled. Spacious and elegant cabin with high quality upholstery means your seats keep a new look and firm feeling for more comfort. Together with excellent luggage capacity of 353L, the all-new Urban Cruiser will get you wherever you need to go in style.

Safety second to none

Safety is paramount in the all-new Urban Cruiser, keep your friends and family safe with both active and passive safety measures. The Urban Cruiser provides a remarkably safe experience with every trip.

- ABS - Anti Lock Braking System
- EBD - Electronic Brake Force Distribution
- VSC - Vehicle Stability Control
- Front Side Airbag (SRS)
- 3-Point Rear Seatbelt
- Front pre-tensioner, force limiter and adjustable child lock (rear doors)
- ISOFIX points for child safety seat, rear seat
- Anti-Theft System - Alarm & Immobilizer

Strong body structure

It is built with high tensile steel and the outer body panels are made of reinforced carbon fiber composite materials to better absorb impact in case of collision.

VSC - Vehicle Stability Control

Automatically activates each individual output to help maintain stability and prevent skidding when turning sharply or cornering on slippery road surfaces.

ABS with EBD

Maximizes braking efficiency and prevents wheels from locking.

SRS Airbags

The all-new Urban Cruiser comes not only with Dual Front but also Side and Curtain Airbags to protect everybody even in side impact.

Excellent luggage capacity of 353L.

Sliding armrest with storage for small items as well as front and back cup holders for additional comfort and storage.

This new Toyota model comes with the standard 3 years or 100,000 km manufacturer's warranty, plus an extra 2 years and 50,000 km giving you a total of 5 years or 150,000 km of extended warranty coverage, which covers any defect caused by a manufacturing fault.

Providing the reassurance of Toyota quality, only Genuine and approved components are used on your vehicle. Utilization of Genuine Parts helps you in maximising the life and resale value of your vehicle. Also, all Toyota Genuine Parts sold over the counter are covered by Parts warranty.*

*See source policy (time or distance) column of product demand data.

Toyota strongly discourages the purchase and use of counterfeit products: Counterfeit parts are not made from the same high-quality materials or subject to the same strict quality controls as Toyota genuine products, leading to serious risks for the driver and passengers, as these parts may wear down faster causing car breakdowns or accidents. Also, use of counterfeit parts will result in loss of cover from the manufacturer warranty.

All Toyota vehicles are designed and engineered to minimise maintenance costs. This means fewer parts that require servicing and, equally important, is that Toyota vehicle technology is made easily accessible allowing for quicker service times and competitive prices.

Your dealer offers a range of service plans which can be adapted to your needs. Generally, the service plan covers periodic maintenance operations recommended by the manufacturer, helping you preserve the life and value of your vehicle. The service plan can be extended once the term of the contract expires (time or mileage).

Your Toyota dealership will advise you on your vehicle's service requirements and locations of Authorised Toyota Service Centres. Your vehicle will need a health and safety check at least once a year. While an **intermediate check is necessary every year or 10,000 km** under normal usage conditions (5,000 km in case of severe usage conditions).

Expertly trained technicians using only Genuine Toyota parts will perform your service at the Authorised Toyota service centre nearest you. After a full vehicle inspection the service advisor will advise you on the correct service for your vehicle based on its mileage, age and service history.

Our accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. Tailor made for your Toyota they add a touch of style, luxury and practicality, they are tested for exceptional durability to enhance the enjoyment of your new vehicle. All accessories are covered by a 1-year warranty.

Direct contact with a contaminated surface, or the person's blood or saliva on a contaminated surface. Direct contact with a contaminated surface is not the same as touching a contaminated surface. For example, if a person touches a contaminated surface, the person's hands are not contaminated. However, if a person touches a contaminated surface and then touches their face, the person's face is contaminated. Direct contact with a contaminated surface is not the same as touching a contaminated surface. For example, if a person touches a contaminated surface, the person's hands are not contaminated. However, if a person touches a contaminated surface and then touches their face, the person's face is contaminated.
